

# **SLAVERY AND HUMAN TRAFFICKING STATEMENT**

## **INTRODUCTION FROM THE MANAGING DIRECTOR**

Slavery and human trafficking remain a hidden blight on our global society. We all have a responsibility to be alert to the risks, however small, in our business and in the wider supply chain. Staff are expected to report concerns and management are expected to act upon them.

## **ORGANISATION'S STRUCTURE**

We are an SME manufacturer of Mobile Video and Telecommunications products and software with a pro-active R&D program. The Company's head office and software development operations are based in the UK and its production facilities are based in Holland.

We approach our end-user market globally through our channel partner network, who represent our band in target sectors and applications for each country area.

## **OUR BUSINESS**

Our business is organised into four business units:

- Research & Development
- Manufacturing
- Software Development – LAN, WAN and Cloud
- Marketing and Commercial Operations
- Service and Repair.

## **OUR SUPPLY CHAINS**

Our supply chains include the sourcing of raw materials principally related to the electronic components for the manufacturing processes.

## **OUR POLICIES ON SLAVERY AND HUMAN TRAFFICKING**

We are committed to ensuring that there is no modern slavery or human trafficking in our supply chains or in any part of our business. Our Anti-slavery Policy reflects our commitment to acting ethically and with integrity in all our business relationships and to implementing and enforcing effective systems and controls to ensure slavery and human trafficking is not taking place anywhere in our supply chains.

## **DUE DILIGENCE PROCESSES FOR SLAVERY AND HUMAN TRAFFICKING**

As part of our initiative to identify and mitigate risk -

- Where viable, we run licenced premises as managed houses to ensure optimum control of the work environment.
- We limit the geographical scope of our licenced premises to ensure optimum supervision of the use of our properties;
- Where possible we build long standing relationships with local suppliers and make clear our expectations of business behaviour.
- With regards to national or international supply chains, our point contact is preferably with a UK company or branch and we expect these entities to have suitable anti-slavery and human trafficking policies and processes. We expect each entity in our supply chain, to adopt 'one-up' due diligence on the next link in the chain. As it is not practical for us (and every other participant in the chain) to have a direct relationship with all links in the supply chain.
- We have in place systems to encourage the reporting of any concerns and the protection of whistle blowers.

## **SUPPLIER ADHERENCE TO OUR VALUES**

We have zero tolerance to slavery and human trafficking. We expect all those in our supply chain and contractors comply with our values.

## **TRAINING**

To ensure a high level of understanding of the risks of modern slavery and human trafficking in our supply chains and our business, we provide training to relevant members of staff.

All Directors have been briefed on the subject.

## **OUR EFFECTIVENESS IN COMBATING SLAVERY AND HUMAN TRAFFICKING**

We use the following key performance indicators (KPIs) to measure how effective we have been to ensure that slavery and human trafficking is not taking place in any part of our business or supply chains:

- Completion of internal audit by line managers;
- Use of labour monitoring and payroll systems; and
- Level of communication and personal contact with next link in the supply chain and their understanding of, and compliance with, our expectations.

This statement is made pursuant to section 54(1) of the Modern Slavery Act 2015 and constitutes our group's slavery and human trafficking statement for the current financial year

Dave Grattan

CEO and Group Chairman
